

### Twenty20 Vision Center

FRIENDSWOOD, TX  
[livehereworkhere.com](http://livehereworkhere.com)

*Reagan Ratcliff, O.D., Owner*

“Friendswood is a great town to open a business because we always support our own,” Dr. Ratcliff said. “I knew that if I could bring a modern, state-of-the-art, well put together optometry practice to Friendswood, we could get through the difficult early stages of opening a business.”

Recently, Dr. Ratcliff tripled its space and the Center has grown from two to ten employees. Part of his expansion includes a dry eye treatment center (the only one of its kind in the area that performs the Lipiflow procedure), as well as other advanced, specialized treatments. Twenty20 Vision Center offers 650 eyeglass frames and high quality contact lenses for all ages.

“It’s great to serve our clients who also need custom contact lenses, ocular disease management, and personalized solutions to computer vision syndrome. Because we ‘Live

Here, Work Here,’ many are our friends and neighbors,” said Dr. Ratcliff.

His wife, Kacey, was also born and raised in Friendswood. They have three children. As a family, they are involved with many school events and youth sports activities.

Dr. Ratcliff serves many community organizations, including the Friendswood United Methodist Church, the Chamber of Commerce, and is on the Hope Village board of directors.

From an early age, Dr. Reagan Ratcliff knew he wanted to live and work in Friendswood. In fact, the main reason he decided to study optometry was so he could “Live Here, Work Here.”

After graduating from Friendswood High School in 2005, Dr. Ratcliff attended Texas A&M, studying biology and chemistry. Following his undergraduate studies, he pursued a doctorate at the University of Houston College of Optometry and is an honors graduate.

Twenty20 Vision Center opened in 2013 at 105 East Parkwood Drive, the corner of FM 518 and FM 528.
